Work Experience

Developer - **Nepal Creative Tech** (June 2021 - Present)

- Designed and developed Nepal Creative Tech website with a CMS.
- Developed website for Daddys Kitchen, a multifusion fast food restaurant.
- Currently working on designing and developing website for Maitigaun, a multi-vendor ecommerce platform.

Developer - **Leadverge.co** (March 2023 - Present)

- It is a startup that specializes in managing social media accounts and developing websites for businesses.

Selected Projects

Daddys Kitchen - Website

Daddys Kitchen is a multifusion fast food restaurant known for its best ambience and amazing hospitality. Currently, it is located in Kathmandu, Pokhara, Butwal, Amarpur and Sainamaina.

Crimson Consultancy - Website

Crimson Universal Educational Consultancy is all about helping students in Nepal who want to study in countries like Canada, Japan, Australia, New Zealand, USA, UK, Korea, and Europe.

Aid Network - Website

Aid Network is a small initiative aimed at helping those in need. It provides a platform where people can list items that could be useful to others, empowering resourcefulness and sustainability.

Web Page Scraper - Extension

Web Page Scraper is a Manifest V3 extension that scrapes data that you want from a web page.

Plant Disease Detection - API

I have developed an API where users can input images of plant leaves, and in return, it will detect any diseases affecting the plant.

Education

I hold a High School Diploma in Computer Engineering completed from Kalika Manavgyan Secondary School.

Interests

Website development, AI, 2D animation, travelling, science fiction movies and series, reading novels.
